

### **REMARKS**

Claims 1-8; 10; 11-17; 19; and 20-22 are pending. Claim 9 was previously canceled. Claim 18 is canceled herein. The examiner is thanked for the indication that claims 1-8; 10; 11-17; 19; and 20-22 are allowable over the prior art.

#### **Drawings**

Applicants note that one of the reference labels in FIG. 4 is incorrect. FIG. 4 has been amended by change of reference label --22-- to --24--. The amendment corrects a typographical error, resolving a discrepancy with FIGS. 1 and 2, and is not material to patentability. Accordingly, no new material has been added, and no estopples are intended thereby.

#### **Specification**

In the Office Action, the Examiner states that the disclosure is objected to because of the informality that the detailed description of FIGS. 3 and 4 fails to explicitly describe all of the elements/features designated by reference labels.

The specification has been amended in response to the Examiner's comments. The amendment is merely formal in nature and not material to patentability. Applicants submit that the amendment obviates the Examiner's objections, and that no new material has been added thereby. Reconsideration and withdrawal of the objection to the specification is respectfully requested.

#### **Status of the Claims**

In the Office Action, Claim 18 is rejected under 35 U.S.C 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicants hereby cancel Claim 18, rendering the rejection moot.

The Examiner is thanked for the suggested clarifying changes to Claims 1, 7, 11, and 20. The Examiner's suggested changes are adopted without exception.
